

St. John Health System

Property / Asset Management Services

CHALLENGE

St. John Health System owns or leases 1.2 million square feet of non-hospital sites throughout Southeastern Michigan. The direction was to establish a real estate department to perform all of the services listed below.

SERVICES

- Lease Management
- Acquisitions/Dispositions
- Financial Advisory Services
- Facilities Management
- Service Contract Administration

SOLUTION

Colliers International assembled a team of real estate professionals to function as St. John's on-site real estate department.

This team, who performed services ranging from maintenance to accounting, managed the daily operations of St. John's non-hospital sites.

Throughout the assignment, Colliers International significantly reduced costs and increased the operating efficiency of this portfolio.
