

Citizens Bank

Database and Lease Management Services

CHALLENGE

Citizens bank owns and leases over 200 facilities in the State of Michigan. Citizens needed a group of professionals to serve as its real estate database manager in addition to performing site acquisition and disposition services.

SERVICES

- Acquisitions of new locations/dispositions of excess holdings
- Lease Negotiations
- Consulting and Advisory
- Database and Lease Management

SOLUTION

Colliers actively negotiated leases, sold excess properties and acquired strategically located sites for Citizens Bank.

All pertinent lease and facility data is input on a proprietary software system and reports are generated monthly. This ensures Citizens receives timely information regarding its portfolio.
